Resolve before deciding to bid

- Deadline mismatch.** The Sell2Wales summary displays 31 October, while its full notice and the appointed portal give 30 October. Use the earlier date for planning and confirm in the portal.
- Term mismatch.** Narrative states February 2027 to January 2030, plus up to three years; structured fields show different end dates. Do not price the service until the buyer clarifies.
- Document gap.** Both PSQ and ITT routes are required. Full participation conditions, staffing obligations and financial requirements have not been reviewed. Any statement that a particular company qualifies would be unsupported.

Next action for the bidder

- Open both document routes; obtain the complete pack; confirm dates and contract term through the official clarification process. Compare every mandatory condition with actual company evidence, available staff and service capacity. This sample does not submit an expression of interest or contact the buyer.
